

Wyoming Stream Team

Summer 2005

Stream Monitoring Workshop

June 27-July 2, 2005

Spring 2005

Dear Educator,

Thank you for your interest in the Wyoming Stream Team Workshop. We hope you will find this course to be a valuable tool for implementing a monitoring program– or for expanding an existing one. WY Dept. of Environmental Quality (DEQ) has provided a grant for Teton Science Schools to facilitate an educational water monitoring program with teacher trainings and an accompanying curriculum. The DEQ uses data collected in this program as a screening tool to monitor streams throughout WY. This program provides an exciting opportunity for teachers to involve their students in more sophisticated monitoring and achieve a greater understanding of the multi-use aspects of their watershed.

Please review the following information and the enclosed course syllabus then return a completed application form along with your tuition.

Thanks again for your interest and I look forward to seeing you this summer!

Lindsay Patterson
Watershed Specialist

For course information: lindsay.patterson@tetonscience.org -or- 307-734-8725 ext. 114

\$75 Tuition due 1 month prior to start of course. Includes housing, meals, monitoring equipment and workshop instruction.

2 Credits through Utah State University, \$30. These are enrichment credits and will not apply toward a degree program but are good for re-certification or salary credit. Each participant must pay for these credits during the workshop. Once you have registered, we will take care of necessary details with Utah State. It is your responsibility, however, to make sure that these credits will transfer to other institutions, if that is what you wish to do. Details will be available from TSS during the workshop

Wyoming participants can acquire SDE re-certification credits at no additional cost.

PLEASE SEND COMPLETED APPLICATION AND TUITION TO:

Wyoming Stream Team Workshop

Wyoming Stream Team

Summer 2005
Stream Monitoring Workshop
June 27-July 2, 2005

Application Form

Name _____

Date _____

School _____

Grade _____

Subject Area(s) _____

School Address _____

Address where you prefer to have TSS mail sent (if different from above):

Work Phone _____

Home Phone _____

Email _____

Signature of Participant _____

To help us prepare for the workshop, please respond to the following questions. Thanks!

1. Do you currently monitor a stream or do water testing in your class?

2. What aspect of stream monitoring are you most interested in?

3. How do you plan to incorporate stream monitoring into your class?

4. Are you willing to submit your data to the online WY Stream Team database?

5. Do you foresee any difficulties in implementing a monitoring program in your school now?

6. What do you hope to gain from this workshop?

Please mail application and \$75
deposit to:
